Abstract	i
Acknowledgements	ii
Table of Contents	iii
List of Tables	iv
List of Figures	v
1. Project Motivation and Goals	1
1.1 Introduction	1
1.2 Project Goals	1
1.3 Project Scope	1
1.3.1 Wireless Capabilities in the Insurance Industry	1
1.3.2 Insurance Opportunities for Wireless Technology	1
1.3.3 Wireless Infrastructure	2
1.3.4 Wireless Technology – A Compendium of Issues and Challenges	2
1.3.5 Wireless Technology – Overcoming Security Risk	2
1.3.6 Wireless Technology – Hardware and Software Considerations	2
1.3.7 Definitions for Wireless Technology	2
2 Approach	3
3 Along the Wireless Spectrum – Where are our competitors?	4
3.1 Insurance Industry and the Internet	4
3.2 Competitor Benchmark Analysis	5
3.3 Methodology	5
3.4 Definition of Benchmark Criteria	6
3.5 Definition of Timeline Continuum	6
3.6 Results of Benchmark Analysis	7
3.7 Quotes from Competitors about Wireless	9
3.8 Additional Competitor Information	9
3.8.1 Progressive	9
3.8.2 USAA	12
3.8.3 Nationwide	12
3.8.4 Geico	12
3.8.5 Country Companies	12
3.8.6 All State	13
3.8.7 State Farm	13
3.8.8 CNA	13
3.8.9 Erie	13
4 Claims Processing	14
4.1 Development of Interview Questions	14
4.1.1 Claims Preparation Questions	14
4.1.2 Claims Processing Questions	15
4.1.3 Other General Questions	15
4.2 Overview of Claims Process Interviews	15
4.3 Internal Claims Process Interview	16

4.3.1	Potential Issues with the claims process	18
4.4	Catastrophe Claims Process Interview	19
4.4.1	Obstacles to Overcome	19
4.4.2	Opportunities for Wireless	20
4.5	Process Inefficiencies and Opportunities for Wireless Applications	21
5	Technical Interviews	22
5.1	Development of the Interview Questions	22
5.1.1	Interview Questions	22
5.2	Knowledge Gained from Interviews	22
6	HOW IT ALL FITS TOGETHER – THE INTEGRATION OF WIRELESS TECHNOLOGY, GEOGRAPHIC COVERAGE AND FUTURE INFRASTRUCTURAL CHANGES	24
6.1	Current Wireless Technologies Available to Customers	25
6.1.1	First Generation Technology (1G)	25
6.1.2	Second Generation Technology (2G)	25
6.1.3	Third Generation Technology (3G)	25
6.2	Overview of Current 2G Technologies	25
6.2.1.	CDMA	26
6.2.2.	TDMA	27
6.2.3.	GSM	27
6.2.4.	IDEN	28
6.3	Current Wireless Technologies Coverage	28
6.3.1	Geographic Wireless Coverage – Its potential impact on American Family	29
6.4	An Introduction to the Six Major National Wireless Providers	29
6.4.1	Sprint PCS	31
6.4.2	Verizon Wireless	31
6.4.3	Cingular Wireless	33
6.4.4	VoiceStream	34
6.4.5	AT&T	35
6.4.6	Nextel	36
6.5	An Introduction to the Rural Wireless Providers	38
6.5.1	Rural Cellular Corporation	40
6.5.2	Western Wireless	42
6.5.3	Lessons learned regarding rural wireless providers	44
6.6	Migration Paths to 3G	44
6.7	Migration to 3G Technology – By Provider	45
6.7.1	Sprint PCS, Verizon Wireless and Nextel	45
6.7.2	AT&T Wireless, VoiceStream and Cingular Wireless	46
6.8	The North American GSM Alliance	46
6.8.1	Airadigm Communication, Inc	47
6.8.2	Cingular Wireless	47
6.8.3	Iowa Wireless Services L.P	48
6.8.4	Powertel Inc	48
6.8.5	Telemetrix Technologies	48
6.8.6	VoiceStream Wireless Corporation	48
6.8.7	Unicel	48

6.8.8	GSM Coverage by State and Provider	48
7	Overcoming Security Risk	53
7.1	The Mobile Security Challenge	54
7.2	Cryptography	54
7.2.1	Symmetric Cryptography	55
7.2.2	Asymmetric Cryptography	56
7.3	Mobile Server-based Applications	57
7.3.1	Background	57
7.3.2	Mobile Server Security Challenges and Solutions	58
7.3.2.1	Network Attacks	58
7.3.2.2	Key Distribution	59
7.4	Wireless Access Protocol	60
7.4.1	Background	60
7.4.2	Wireless Transport Layer Security (WTLS)	61
7.4.3	WAP Security Challenges and Solutions	62
7.4.3.1	Weak Encryption	62
7.4.3.2	WAP GAP	63
7.5	Virtual Private Network (VPN)	63
7.5.1	Background	63
7.5.2	VPN Technologies	65
7.5.2.1	PPTP	65
7.5.2.2	L2TP	66
7.5.2.3	IPSec	66
7.5.3	Wireless VPN's	67
7.5.4	VPN Security Challenges and Solutions	67
7.5.4.1	Ensuring the Security of an Existing VPN Infrastructure	67
7.5.4.2	Wireless VPN Security	68
7.6	Mobile Devices	68
7.6.1	Background	68
7.6.2	Device Security Challenges and Solutions	68
7.6.2.1	Handheld access control and data security	69
7.7	Password Authentication	69
7.7.1	Password Authentication	69
7.7.2	Signature Authentication	69
7.7.3	Biometric Authentication	70
8	Hardware Considerations of Wireless Technology	72
8.1	Blackberry	74
8.1.1	Introduction	75
8.1.2	Blackberry Wireless Handhelds	75
8.1.2.1	Innovative Product	77
8.1.3	Security of Blackberry	77
8.1.4	Advantages of Blackberry	77
8.1.5	Network Coverage of Blackberry	78
8.2	Cell Phones	78
8.2.1	Introduction	78
8.2.2	Method of Transmission	79

8.2.2.1	Analog	79
8.2.2.2	Digital	80
8.2.3	Types of Cell Phones	80
8.2.4	Advantages of Cell Phones	81
8.2.5	Disadvantages of Cell Phones	81
8.2.6	Examples of Cell Phones	81
8.2.6.1	Nokia	81
8.2.6.1.1	Nokia 9000il Digital	82
8.2.6.2	Motorola	82
8.3	Personal Digital Assistants (PDA's)	83
8.3.1	Introduction	83
8.3.2	Features of PDA's	83
8.3.2.1	Size of PDA's	84
8.3.2.1.1	Palm-sized PDA	84
8.3.2.1.2	Handheld PDA	84
8.3.2.2	Types of Data Entry	85
8.3.2.3	Operating Systems	85
8.3.2.3.1	Palm OS	85
8.3.2.3.1.1	Advantages	85
8.3.2.3.1.2	Disadvantages	85
8.3.2.3.2	Windows CE OS	86
8.3.2.3.2.1	Advantages	86
8.3.2.3.2.2	Disadvantages	86
8.3.2.4	Display	86
8.3.2.5	Memory	87
8.3.2.6	Power Supply	87
8.3.2.7	Communications	87
8.3.2.8	Special Features	88
8.3.2.9	Price	88
8.3.3	Things PDA's can do	88
8.3.4	Future Trends in PDA's	88
8.3.5	PDA Manufacturers	89
8.3.5.1	Compaq	90
8.3.5.2	Palm	90
9	Software Considerations of Wireless Technology	91
9.1	Introduction	91
9.2	WIRELESS SOFTWARE DEVELOPMENT	92
9.2.1	Software Applications Development	92
9.2.2	Wireless Applications	93
9.2.3	Evolution of Programming Languages	93
9.3	SOFTWARE APPLICATION DEVELOPMENT TOOLS	95
9.3.1	Overview	95
9.3.2	Metrowerks CodeWarrior for Palm OS Platform	95
9.3.2.1	Purpose	95
9.3.2.2	Industry Testimonials	95
9.3.3	Borland Jbuilder	96

9.3.3.1	Purpose	96
9.3.3.2	Product White Papers	96
9.3.3.2.2	Partner Success Stories	96
9.3.3.2.3	Recent Quotes	97
9.3.4	Rational Software	97
9.3.4.1	Purpose	97
9.3.4.2	Users (Companies, Clients, Industry Sectors)	97
9.3.4.3	Market Share	98
9.3.5	Sybase	98
9.3.5.1	Purpose	98
9.3.5.2	Users (Companies, Clients, Industry Sectors) and Market Share	98
9.3.6	Broadbeam	98
9.3.6.1	Purpose	98
9.3.6.2	Users (Companies, Clients, Industry Sectors)	99
9.3.6.3	Market Share	99
9.3.7	Oracle	99
9.3.7.1	Purpose	99
9.3.7.2	Users (Companies, Clients, Industry Sectors)	100
9.3.7.3	Market Share	100
9.3.8	Additional Remarks	101
9.4	CONCLUSION	101
10	Potential Impact	102
10.1	What are others doing with wireless?	102
10.2	Telematics	103
10.3	Simulation of Wireless Technology use in the Insurance Industry	103
11	Conclusions and Recommendations	106
11.1	Claims Processing	106
11.2	Recommendations for Geographic Coverage	107
11.3	Software Application Development	110
11.4	Infrastructure Recommendations and Considerations	110
11.5	Conclusion	111
	Bibliography	112
	Appendix A: Definitions of Terms Related to Wireless Technologies	115
	Appendix B: Process Inefficiencies and Opportunities for Wireless Applications	118
	Appendix C: Western Wireless City Cellular Coverage Area	119
	Appendix D: Network Infrastructure	120

LIST OF TABLES

	Page
Table 1 – A Compilation of Insurance Competitors	6
Table 2 – Estimation of Geographic Land Coverage by Type of Wireless Technology for the American Family Service Area	30
Table 3 – Cingular Wireless Coverage within the American Family Service Area	34
Table 4 – Western Wireless Cellular Licenses and Potential Population Reach	42
Table 5 – Example Handheld Device Biometric Solutions	71
Table 6 – Features of Blackberry Devices	76
Table 7 – Review of Software Development Applications	95
Table 8 – Borland Jbuilder Partner Success Stories	96

LIST OF FIGURES
