

## Table of Contents

Executive Summary.....	2
Acknowledgements.....	7
1. E-Health and the Healthcare Industry.....	10
2. E-Health Services, Best Practices, Future Trends.....	14
2.1 E-Health Sector Selection and Benchmarking Strategy.....	16
2.2 Health Care Organizations.....	17
2.2.1 Overview.....	17
2.2.2. Attribute Analysis.....	17
2.2.3 Future Trends.....	22
2.3 Public Websites.....	24
2.3.1 Overview.....	24
2.3.2. Attribute Analysis.....	24
2.3.3 Future Trends.....	27
2.4 Patient Web Portals .....	27
2.4.1 Overview.....	27
2.4.2. Attribute Analysis.....	29
2.4.3 Future Trends.....	33
3. Patient E-health Use and Attitudes.....	35
3.1 General Information.....	35
3.2 Survey Design, Administration, and Data Analysis Methodology.....	35
3.3 Survey Results.....	38
3.4 Implications for Future E-Health Strategies.....	46
4. Healthcare Organizations' Current & Future E-Health Strategies.....	50
4.1 General Information.....	50
4.2 Survey Design, Administration, and Data Analysis Methodology.....	52
4.3 Survey Results.....	54
4.4 Implications for Future E-Health Strategies.....	68
5. Conclusion.....	73
Bibliography .....	75
Appendix A – Healthcare Organizations E-Health Benchmarking Matrix .....	77
Appendix B - Public E-Health Benchmarking Matrix .....	81
Appendix C – Electronic Medical Record Benchmarking Matrix .....	84
Appendix D – Patient Attitudes Survey .....	86
Appendix E- Patient Attitudes Survey Results .....	91
Appendix F – Organizational E-Health Strategies Survey .....	107

## List of Tables

Table 1: Organization Categories.....	16
Table 2: Unique Benchmark Features.....	21
Table 3: Current Internet Use.....	39
Table 4: Concerns that prevent one from using the Web for healthcare needs.....	40
Table 5: Online services one would use 'if offered' by healthcare providers.....	42
Table 6: Advantages of online healthcare.....	44
Table 7: Highest Correlations of particular questions.....	46
Table 8: Organizational and Health Informatics.....	50
Table 9: Clinical Informatics.....	51
Table 10: Telemedicine.....	52
Table 11: Participant Hospital Size.....	54
Table 12: Current Internet-Aided Services.....	55
Table 13: Current Internet-Aided Services.....	56
Table 14: Current Telemedicine Use.....	57
Table 15: Internet Volume.....	58
Table 16: Perceived Benefits.....	58
Table 17: Barriers to the adoption of Internet-aided services.....	60
Table 18: Future Internet-Aided Services – by 2004.....	62
Table 19: Future Internet-Aided Services.....	64

## Table of Figures

<b>Figure 1:</b> Interactive-Aided Health Services: Drivers, Barriers, and Strategies .....	2
<b>Figure 2:</b> Internet-Aided Technology Services Model.....	12
<b>Figure 3:</b> Strategic approach to internet-aided services.....	68
